Subject: Microsoft Settlement

Dear Madam or Sir,

I have had the opportunity to read the proposed settlement between the U.S. Department of Justice and Microsoft and I wish to inform you this settlement will make Microsoft stronger than it is now. There is no protection for non-business (open source software) in the settlement and the proposal does not properly discipline Microsoft for their past behavior. The only proper way to discipline Microsoft is to publish the Window's code. Access to this code would allow other companies to compete with Microsoft on an even footing.

Sincerely,

John T. Mitchell, PMCP, MCSE+I, TCO Expert
Technology Solutions Consultant - Project Manager
